

# Are You Prepared for Disasters Including Typhoon & Earthquak

Last year, there were districts with electric failures and also landslide damages due to typhoons and torrential rainfalls. How was your district? Let's think about disaster preparation once again, so you won't panic when there is one.

#### Be aware of landslides!

- ·Cliff's small rocks are falling down.
- •Spring water is seen in a slope.
- There is a crack in the slope.

#### Be aware of flood damages!

- •Living in a semi-basement.
- At the parking underground.

If you are worried of disaster, check your local evacuation area beforehand. You can evacuate to the designated evacuation site and also a sturdy high building outside of the landslide area can be an evacuation site. Please talk about your evacuation site with your family.

#### **Prepare Emergency Supplies!**

There are many apartments in Yokohama and by disaster, you might experience black out. The toilet and elevator might stop due to the black out. Please prepare emergency supplies in case you have to spend your days at home.

Supply Examples;

Drinking water (at least 9L per person to drink for 3days), food supplies (Something you can eat without cooking such as canned goods, crackers and etc.), emergency toilet (available in the DIY store), flashlight (don't forget batteries), portable radio and etc.

If there is a baby/ an infant, prepare diapers and milk. For a household with a member with long term care, prepare necessities which you need daily.

Yokohama city hall website has more detailed information about disasters. There are QR codes for Disaster information and also QR codes for City of Yokohama Disaster Prevention Information Mailing List. Please check the website.

# Foreigners can also be a Volunteer Firefighter!

~Join and help to prevent disaster including fire in your district~

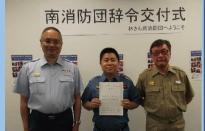

Volunteer firefighters who help the district are not professionals. They work and study in other fields. From this year, we are seeking for foreign resident volunteers since this district's foreign residents are increasing.

If you are interested, please ask Minami Fire Station for more details.

**Contact** Minami Fire Station Tel.045-253-0119 **X** The volunteer is in Japanese.

### Mr. Lin haiguo; First Foreign Volunteer Firefighter

Mr. Lin is from Jilin, China. He came to Japan 16years ago and opened a Chinese restaurant "Ichiryugama"in Urafunecho. He said, "My aim is to be a bridge between Chinese and Japanese so they can talk more about disaster prevention." The head of Minami Fire Station, Mr. Koide said "I am happy that he joined our volunteer troop. He will be able to help the foreign residents." Also Mr. Ariga; the head of the volunteer firefighter troop said "I am looking forward for his joining as a first Minami Foreign Volunteer Firefighter." # Be Careful of Heatstroke!

Rain and hot humid season has come. Points to prevent heatstroke.

Exercise daily and get used to the hot, humid season.

Avoid direct sunlight. Use air conditioner to keep comfortable room temperature.

Drink water and intake salt frequently to prevent dehydration.
